Approximately 40 minutes by fast ferry and 10 minutes by Helicopter

General Information:

THE RIG. Project

- A tourism and entertainment destination in the Arabian Gulf deriving its concept and design from offshore oil platforms,
- A seasonal destination for short holidays, weekends, and day trips,
- A destination for cruise lines between the Kingdom and the Gulf countries (GCC),
- Hotels and amenities with industrial characteristics, designed by world-class designers,
- Unique means of transportation to and from the destination, including fast ferries, private yachts, helicopters and seaplanes.

THE RIG. will offer a wide variety of hospitality, leisure, entertainment, and accommodation options along with a vast range of adventure and extreme sports activities, both above and below the sea.

THE RIG. Project will seek to attract more than 900,000 annual visitors by 2032. The target markets include extreme sports and adventure lovers, those interested in oil and gas heritage, yachting and cruise line tourists, families, and relaxation seekers.

THE RIG. Project Fast Facts:

- The gross floor area for THE RIG. will exceed 300,000 square meters
- THE RIG. will feature 3 hotels with a total of 800 rooms and 11 restaurants
- Peak daily visitor numbers are expected to reach 10,000 during the high season
- Daily visitors are estimated to reach 5,000 on weekends
- The project aims to attract over 900,000 annual visitors by 2032

Environmental, social, and corporate governance (ESG):

THE RIG. Project is being developed to the highest international standards to maximize positive environmental impact, empower communities, facilitate eco-experiences, and operate responsibly.
